Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1. (Currently amended) A method of producing a superconductor, comprising the step of forming a superconducting layer on a base layer by performing a film deposition at least two three times, wherein the film thickness of a superconducting film made in each film deposition is 0.3 µm or less and the superconducting film having the film thickness of 0.75 to 3 µm is formed on the base layer.
 - 2. (Canceled)
- 3. (Currently amended) A method of producing a superconductor according to claim 1 or claim 2, wherein a supply area velocity of the base layer in each film deposition is at least $0.04 \text{ m}^2/\text{h}$.
- 4. (Original) A superconductor comprising a superconducting layer formed by performing film deposition on a base layer at least three times, wherein the superconducting layer has a layer thickness in the range of 0.75 μ m to 3.0 μ m, the film thickness of a superconducting film made in each film deposition being 0.3 μ m or less.
